V. C. French, Publisher

NEW STAFF ENGAGED FOR WETASKIWIN HOSPITAL

Practitioners must give Report of Every Case. Thirty-five Patients Admitted last Month. Tender let for Covering Heating Pipes. Visiting Committee is Named.

The Wetsaskiwin Hospital Board held their monthly meeting on Wednesday evening of last week with a good attendance of members.

Acting on a letter from the provincial department, the secretary was instructed to write each of the practitioners in the city pointing out the penalty for failing to make proper reports of cases.

Fourteen applications for the position of matron were considered and after due deliberation, the application of Miss E. Johnson was accepted at a salary of \$100.00 a month.

Sixteen letters were read and considered for the position of graduate nurse, and Miss Vera Patterson was engaged.

The application of Miss Annie Olson as hospital cook was accepted.

The matron's report for September showed that 35 patients had been admitted during the month and that 40 had been discharged; there were 17 operations; the total number of hospital days being 231.

Chairman Carl Smith submitted a

BURNED TO DEATH USING KEROSENE TO LIGHT FIRE

Edmonton, Oct. 20.—Early Monday, Paul Krywianski, 12, at the family home on the outskirts of Vermilion, during the absence of the parents north of Manitoba threshing, attempted to light the kitchen fire with kerosene and was burned to death when the oil can exploded and set fire to the building. A brother, 17, made his escape from the bedroom, not knowing Paul had been entrapped.

LANTERN LECTURE TONIGHT
There will be a lantern lecture for children this Thursday evening, October 22, at 7.30 p.m., in Wesley hall, entitled "Alice in Wonderland."

DYNAMITE IS FOUND BY KIDDIES IN SHED

Drumheller, Oct. 19.—Following fight after the dynamiting of William Hopkins' house in Newcastle, a cache of some 70 sticks of dynamite, with caps and fuses, ended to blow up half the town, was located Saturday afternoon in one of the small buildings at the rear of the Calgary Brewing and Malting company's warehouses.

It appears that some kiddies were roaming about this district in the course of their Saturday afternoon's play, and decided to go into this shed to satisfy their youthful curiosity. Their gaze fell upon the dynamite, and rushing to Mr. Rogers, the local manager of the Calgary Brewery, they asked him to come and see what was in the shed. Mr. Rogers soon ascertained that it was dynamite, and immediately notified the chief of police, who had the cache removed to safety, and turned the matter over to the provincial police for investigation.

72 NOMINEES FOR 27 SEATS ARE CHOSEN

Ottawa, Oct. 16.—Candidates have been officially nominated in 37 Canadian constituencies. As provided in the Dominion Elections act, nominations were received between 12 and 2 o'clock Thursday for these constituencies which would otherwise be seriously handicapped in their preparations for polling because of their broad expanse, sparse and scattered population, and in some cases slow means of communication, certain ridings have been allowed two instead of one week between nomination and polling days.

Thursday's official nominations were generally speaking, merely confirmatory of their character.

There were 73 candidates nominated for the twenty-seven seats. Of these, 25 were Conservatives, 23 Liberals and 13 Progressives. Three Independent Liberals, one Independent Conservative and one straight Independent candidate, were also nominated in addition to two straight Labor and two Farmer-Labor candidates.

ANOTHER RECORD YIELD OF OATS

The largest yield of oats yet reported in this community, comes from the Angus Ridge district, where W. J. Wilson threshed eight acres of oats for N. A. Krueger, and turned out 85.5 bushels to the acre. This is Mr. Wilson's liberal machine measure of 42 pounds to the bushel. Taking the standard weight of 34 pounds to the bushel this field yielded 121.75 bushels to the acre. They are of the Banner variety. Does this record stand for the season of 1925?

FIVE CHURCHES PLAN TO UNITE THEIR FORCES

Ottawa, Oct. 21.—Inspired by the fusion of the Presbyterian, Methodist and Congregational churches of Canada, five religious denominations with branches all over the United States and Canada are negotiating with a view to forming a union of churches whose doctrine is founded on the teachings of John Wesley. This information was given yesterday by the Rev. A. J. Shaw, pastor of the local churches of the Wesleyan Methodist Connection.

The churches which are named in this plan to reunite Wesleyan adherents are: Free Methodist church of America, with headquarters in Chicago; Wesleyan Methodist Connection of America, with headquarters at Syracuse, N.Y.; Pilgrim Holiness Movement of Owen Sound, Ont.; the Brethren of Christ, a branch of the Methodists of western Canada, and the United States, and Nazarene church, with branches in Edmonton, Calgary and other western Canadian and United States cities.

The five denominations have a combined membership of several hundred thousands of members.

LOCAL BOYS WIN BASKETBALL GAME

A basketball game was played on the local grounds on Friday evening last, when the local high school boys took revenge from the Ponoka aggregation for the shut-out they received on the stamping ground of the latter team the week before. It was a pretty good game, but both teams showed signs of practice. The Ponoka visitors were entertained at supper after the game.

CRIMINAL COURT HERE THIS WEEK

The adjourned sittings of the supreme Criminal court are being held here this week, with His Honor Mr. Justice Boyle presiding. All cases being heard will be decided by the judge, as the jury cases were disposed of at the previous sittings. We will give a complete report of the court next week.

A REAL WETASKIWIN CROP

S. J. Albers, who lives on rural route No. 2, Wetsaskiwin, reports to The Times that he recently finished threshing a field of 24 acres of Marquis wheat, which yielded 1463 bushels to the field, being just one bushel short of 61 bushels to the acre. It is expected that the wheat will grade No. 2 Northern. Mr. Albers estimates that he lost 50 bushels in the field in harvesting.

Staff Capt. and Mrs. W. J. Carruthers

Divisional officers of the Salvation Army for Alaska.

Mr. Carruthers, who attended the conference in Winnipeg last week is spending a week visiting his esteemed parents, Mr. and Mrs. Wm. Carruthers, and other friends in the community prior to his return to the north country.

ELECTION HOLIDAY ON THURSDAY NEXT

Ottawa, Oct. 17.—Inquiries on the subject indicate that considerable confusion has arisen over the half holiday on election day, which has been proclaimed by order in council. It will extend from noon till evening.

War Not Outlawed By Security Pact; Chance Of Conflict is Reduced

London, Oct. 20.—London awoke today to find emblazoned on the front pages of the newspapers the texts of the momentous decisions reached at Locarno which virtually make farther wars in Europe impossible. The treaties were made public in the capitals of Europe last night.

The security pact, which guarantees inviolability of the French, Belgian and German frontiers, and the six treaties between Germany, France, Belgium, Poland and Czechoslovakia and between France and eastern allies, Poland and Czechoslovakia, were read with avidity.

Such editorial notice as the agreements receive in this morning's newspapers is quite favorable, although nowhere are they hailed as absolutely securing the future peace of Europe. They are described as "a promising attempt to return to the old family pact of Europe and to arrange guarantees on the basis of reason."

Confidence is expressed by the writers that the treaties will receive the ratification of the various parliaments concerned, especially in view of the fact that they cannot be annulled but must be accepted or rejected as they stand. It is characterized as unthinkable that any legislature will take the responsibility of failing to approve what is termed such a hopeful structure. By some of these writers it is foreseen that the German nationalists possibly will be able to overthrow the ministry of Chancellor Luther. It is expected that this will not happen, but the belief is expressed even should there be such an eventuality another ministry would put the pact through the Reichstag.

Neither the security pact nor any of the other six treaties will have the effect of outlawing war. In point of fact, it is made clear that there are circumstances in which war is legitimate; the treaties simply strive to define these circumstances, limit the number and do as much as is conceivably possible to prevent warlike conditions from arising.

WETASKIWIN TO LOSE REV. AND MRS. JAMES

We learn with regret that the Rev. W. J. James and Mrs. James will be leaving Wetsaskiwin early next year. Mr. James has received a call to work in the diocese of Athabasca, and after very earnest consideration, he has decided that it is his duty to accept. Mr. James expects to leave for his new sphere of labor about the middle of February.

KIWANIS ROAD RECORD

During the past eight months KIWANIS International in their civic activities carried on by the 1400 clubs on the north American continent, claim to have made expenditures of about \$300,000 for road improvement and the building of national highways in forty states.

Staff Capt. and Mrs. W. J. Carruthers

as a field officer in Canada east and then in Canada West. At one time he was the Army's financial representative for southern Saskatchewan. While holding that important position he was promoted to his present rank of Staff Captain, and sent to Wrangell as divisional commander of northern B.C. and Alaska, where he is doing a great work. His many friends in this community are proud of the fact that the Staff Captain is the youngest officer on the staff.

BRETT TERM HAS EXPIRED

Edmonton, Oct. 20.—The term of Lieut.-Gov. R. G. Brett expired today, but no announcement has been made by the federal authorities as to his successor, although Calgary reports have been to the effect that Dr. Beher, president of the Alberta Liberal association was the probable choice. Dr. Brett informed the Canadian Press today that he would carry on until he receives official intimation from Ottawa.

ALBERTA PHONES WILL INAUGURATE A WIDER SERVICE

Edmonton, Oct. 20.—Wednesday afternoon, in the office of the minister of railways and telephones, V. W. Smith, the provincial telephone department will formally inaugurate a new universal service which will link all points in Canada and the United States with Alberta local and long distance telephone lines.

Lieut. Governor H. G. Brett and Premier Greenfield at 2:30, o'clock will talk to parties at Ottawa, and the governors of three States across the Atlantic, Montana, Arizona and Colorado, as well as speaking to Vancouver.

In announcing this new service yesterday, Bruce Baxter, superintendent of telephones for the Alberta government, said that hereafter persons desiring to speak to parties on the Pacific coast or any other important point in the United States and Canada, will get prompt connections over the telephone lines. In the United States, the Bell telephone is linking up with the Alberta system demonstration Wednesday, to be carried out in co-operation with the mountain states branch of the Bell company.

Heretofore Alberta telephone lines have been connected up with Saskatchewan and Manitoba, and farthest east point of contact was Winnipeg.

PIRATES ARE WORLD BASEBALL CHAMPIONS

Pittsburg took the seventh and final game of the greatest world's series on Thursday last when they defeated the Washington Senators by 9 to 7. Washington got away to a big start when they scored four runs mostly through Aldridge's lack of control. Pittsburg put three runs over the plate in the third and Washington tallied two more in the fourth. Pittsburg notched another in the sixth and two more in the seventh, tying the score. Peckinpaugh came through with a homer in the eighth for Washington, putting his team one up. The joy was short lived, however, for Pittsburg in their half of the eighth got three over the plate after two were down. Smith hit to right for two bases, Yule ran in to right for two bases, a pinch hitter, came through with a two-bagger, scoring Yule. Moore walked. Casey grounded to Peckinpaugh who tossed to Harris but Moore was safe. The bases were full. Caylor hit for two bases scoring Yule and Moore. This ended the scoring.

Score by innings

Washington..... 400 200 010—7 7 2
Pittsburg..... 003 001 22X—9 15 2
Batteries: Pittsburg—Aldridge, Moore; Johnson, Kremer, Oldham, pitchers; Gorch and Smith, catchers. Washington—Johnson and Rucl.

Third Game

Pittsburg..... 010 101 000—3 8 2
Washington..... 001 001 20X—4 10 1
Kremer and Smith; Ferguson, Marberry and Rucl.

Fourth Game

Pittsburg..... 000 000 000—0 6 1
Washington..... 001 000 00X—4 12 0
Yule, Morrison, Adams and Gorch; Johnson and Rucl.

Fifth Game

Pittsburg..... 002 000 211—6 13 0
Washington..... 100 100 100—3 8 1
Aldridge and Smith; Corvick, Ballou, Zachary, Marberry and Rucl.

Sixth Game

Washington..... 110 000 000—2 6 0
Pittsburg..... 002 010 00X—3 8 0
Ferguson and Severed; Rucl; Kremer and Smith.

CARLOAD OF HOGS FROM ONE FARMER

As an instance of hog raising in the Wetsaskiwin district, Richard Balkhorn, five miles east of the city, sold a carload of hogs from his farm last week. Evidently this is one of the reasons for the name of his farm—"Justamere Stock Farm."

***Seven Kays to Baldpate* at the Angus Friday and Saturday.

CITY COUNCIL DISPOSED OF ANOTHER RESIDENCE

Several Auto Assessments Adjusted. Ground Detector Purchased for Power House. Bylaw Providing for Payment of Remuneration Passed. No more bonds to be Purchased.

The regular meeting of the city council was held on Tuesday evening with all the members in attendance except Ald. Edgely. Deputy Mayor Gohard occupied the chair.

After the adoption of the minutes of the last meeting, a letter was read from the Electrical Engineers, Calgary, respecting the purchase of a generator. The letter was filed.

E. Pearson addressed council regarding arranging for payment of taxes. The matter was referred to the finance committee and the city solicitor.

Mrs. Hogan offered to purchase the Spencer house for the sum of \$500. The offer was accepted.

The secretary of the Mother's Alliance department wrote regarding cancellation of payment to a widow in the city. Letter was filed.

Oliver Konistone wrote regarding assessment on his auto, stating that he did not have the car all the year. The assessment will be changed to six months.

The public properties committee will attend to the repairing of pump and well for a city tenant.

Rev. O. H. Miller wrote appealing against assessment on auto as he did not use the city. Inferred to the finance committee.

An adjustment was made on the assessment of car of Mrs. Matatal.

The following accounts were passed for payment: General \$445.53; Electric Light, \$252.74; Waterworks, \$48.73; Supplementary \$112.60.

The Canadian Westinghouse Co. and the Canadian General Electric Co. submitted quotations for a ground detector for power house. The offer of the Canadian General Electric Co. at \$150 was accepted.

The request of J. W. Horie for water and sewer connection to new building was granted.

Bylaw No. 521 providing for the payment of \$45.00 to the mayor and each of the aldermen for their services for the year 1925 was read three times and finally passed.

It was agreed that in the future no more surplus money be invested in government bonds, but be placed in the savings department of the bank instead.

Meeting adjourned.

MOOTS FREE LOAN FOR DOMINIONS

London, October 16.—The question of the British government offering free loans to the Dominions for the encouragement of enterprise will be considered at a special meeting of the Liverpool chamber of commerce.

The chairman of the transport committee of the Liverpool chamber of commerce has informed the chamber that in his opinion it would be of advantage to the empire if the government allowed Canada, Australia, New Zealand and other dominions from £200,000,000 to £300,000,000 free of interest for five years with the provision that the money be repaid at the end of that time with five per cent interest and a further five per cent as a redemption fee, practically amounting to two per cent interest per year. At present this country is spending more than £100,000,000 a year in payment of debts which have brought no benefit at all, he says.

'CORPSE' COMES BACK TO FACE MURDER TRIAL

New York, Oct. 17.—William Turner, whose "death" netted his heirs \$85,000 in life insurance, has returned from Germany to face a charge of murder in connection with a mine explosion near McCarr, Kentucky, in which two men were killed, one of whom was supposed to have been Turner.

Turner was foreman in the mine until last January when the explosion occurred. One of the bodies was identified as that of the missing foreman and an insurance company paid Turner's heirs \$85,000.

Agents of the company, however, returned the money to the heirs who went to Germany, instead of to the usual destination of dead men. They learned that he planned to return to the United States, and when the steamer Resolute docked today, Turner was greeted by detectives who removed him to police headquarters.

WHAT MATTERED MOST
A certain glow in Scotland had the reputation of having a splendid echo. An English gentleman visited the place and asked his guide about the echo.

"Just about," said the guide.
"Two bottles of whisky," said the guide.
The gentleman did as requested and after waiting for several minutes, he turned to the Scot, and said:
"But I do not hear any echo."
"Maybe not," chuckled the Scot, "but here's the hiee comin' w' the whisky."

**CREATOR OF THE "SCARLET PIMPERNEL" IN QUEBEC**

(Upper right) The oldest member and the youngest of the Asselin family living in the oldest house in Quebec. (Upper left) Baroness Orcey with the Asselin family. (Lower) The new hundred-and-fifty-year-old Asselin Farm House at St. Famille, near the St. Lawrence, just outside Quebec.

Baroness Orcey who is visiting Canada in order to secure local color for a new romance which she has in mind, has already written 32 novels in addition to "The Scarlet Pimpernel" of which three and a half million copies have been sold and which has been translated into fourteen languages. Of recent years her books have become very popular in Japan. Although her novels are now sold at the rate of over a thousand copies a day, the publishers were at first slow to recognize the popularity of her appeal and "The Scarlet Pimpernel" was refused by no less than twelve publishing houses.

Although she has chosen the English language as her medium, the Baroness is by birth a Hungarian and did not learn English until she was fifteen. Her father to whom Liane dedicated one of his Hungarian rhapsodies believed in giving his children an education which would enable them to earn their own living if necessity arose, and the Baroness therefore trained for and passed the London matriculation examination so as to qualify as a teacher. She also studied art, but eventually chose the less prosaic career of a play-wright and novelist in which she has achieved a phenomenal success.

This is her first trip to the continent but Canada has always appealed to Baroness Orcey as a land of great wheat plains and rugged mountains with a climate not unlike that of her own native Hungary. While most of her stories have dealt with the romantic periods in French or English history, she has occa-

sionally taken modern themes as for instance in her story "The Emperor's Candlestick" and she is particularly interested to see the influence of new conditions in a new country upon European races.

Her favorite author is Joseph Conrad, who like herself learned English as a foreign language although he eventually attained a greater mastery of that language than any English writer of his day.

While seeking local color in the vicinity of Quebec City, Baroness Orcey came across one of the oldest houses in the province—the Asselin Farm House, which is two hundred and fifty years old, and is in the tiny old-world village of St. Famille, in the Ordes, just outside Quebec. The Baroness quickly made friends of the Asselin family and was fascinated by their beautiful heir-looms. In the picture showing the interior of the ancient house, the oldest surviving member of the family is seen with her great-grandson to whom she loves to tell stories of the stirring romantic days the old province has passed through.

BEEF RAISING IN CANADA

Dealing with the most profitable age and weight of cattle the bulletin on "Beef Raising in Canada," published by the Dominion department of agriculture, remarks that the days of the heavy hallock are past, and that the life of the steer is gradually shortening. Still the weighty ox will command a good price for the export trade, provided he is of good beef formation and well fattened. Finish is what is looked for in the market and is as much appreciated in the butcher's bullock of 1100 pounds as in the exporter weighing 1500 pounds. Approves of this, a remark in a recent live stock branch market report is worthy of observation. Packing houses are receiving large numbers of western killers, it says, but are paying little attention to any other than finished cattle. Most of the finished heaves marketed by up-to-date Ontario feeders are from twenty to thirty months' old and weigh from 1200 to 1400 pounds.

In Memoriam

In ever loving memory of our dear Mother and Wife, Margaret Ann Levan, who left us for her heavenly home, October 20, 1925.

The Gift of Death
I knew she walked among the fair,
I saw her as she must have been,
With that dear ripple in her hair,
And forehead white and eyes so clear.
With sense of womanhood that knew
The ways of life, the sad, the sweet,
And with the smile that gently drew
The passer in the village street.
The passer in the village street,
I never thought before that death,
With such a strange creative hand,
Could with the passing of the breath
Call beauty back at his command;
I saw her face at youthful bloom,
And yet, she passed before the span
The changed years of joy and care,
Alotted to the life of man.
The wrinkles wandered o'er her face,
No marks of pain were there to see,
That beauty of a wondrous grace,
Yet, she it was that mothered me,
And as I knelt to kiss that cheek
With all my buoyant youth then fled
I almost thought to hear her speak,
Or find an angel in her stead.
—Hudson, Sons, Daughters, and Grandchildren.

NEW ISLAND INDUSTRY

The new fish reduction plant which is to be constructed on the west coast of Vancouver Island by the Oceanic Fish Oil and Meal Company, of Vancouver, will have a capacity of from 20,000 to 30,000 gallons of oil per month. The plant is to be built at Quatsino, and will mark the sixth new industry of this character to be started on the west coast this year. The plant will be ready for operation next season.

THE PROFITABLE FEEDER STEERS

That there is good money in feeding steers of the right type has been demonstrated at the Dominion Experimental Farm at Scott, Saskatchewan. At this station during a period of eight years an average net profit of fifteen dollars and forty cents per head has been realized.

In order to realize a substantial profit in feeding and marketing, steers of recognized beef type are required. Poor doing, unfriendly animals cost more to feed, spoil the appearance of the lot as a whole, are difficult to dispose of, and obviously are a losing proposition to the owner. It is, therefore, evident that when purchasing steers to place in the feed lot some experience is necessary in order to detect these undesirable individuals, and farmers who are not skilled buyers will usually find it more profitable to purchase steers through a reliable live stock commission firm. The losses incurred through ignorance of the market demands are apparent, and the failure to give sufficient attention to the sorting of the steers into car-load lots which are uniform as to breed, color, type, finish and age, contributes largely to these losses.

Both in this country and in the old country, the market shows a decided preference for the handy-weight light steer and the highest prices are paid for steers not exceeding 1300 pounds in weight. Steers of this description can be disposed of more readily and profitably as the smaller cuts of meat are preferred by the consuming public and there is less waste. The big steer, which the Great Britain trade terms the "carcase bullock" is not desired by the average butcher.

Women With Weak Kidneys Should Use

No woman can be strong and healthy unless her kidneys are well, and nine times out of ten the kidneys are to blame for the weak, lame and aching back from which she suffers so much. When you give your kidneys out of order, when your back aches and pains and give you endless misery, all you have to do is take a few boxes of Don's Kidney Pills, and you will find that all the aches and pains will vanish, and make you healthy and happy and able to enjoy life to the utmost. All druggists and dealers handle them; put up only by The T. Milburn Co., Limited, Toronto, Ont.

NO POLICY CHANGE IN WHEAT POOLS, SAYS McPHAIL

Winnipeg, October 16.—At the close of the meeting of the Central Selling Agency of the western wheat pools here Thursday night, A. J. McPhail, president, stated that there would be no change in the policies of the pools. Mr. McPhail stated that he viewed the threatening season in a very serious light. He said that three weeks' fine weather was necessary to complete satisfactorily the harvesting of the western crop, but that the outlook for a stretch of weather of that sort was not bright this late in the year.

LIVESTOCK PRODUCERS MAKE BIG SHIPMENTS

Another shipment of steers left Edmonton last week for Glasgow consigned by the Livestock Producers of Canada, in which were 520 cattle, finished and stores, mostly from the big feed lots of the company at Edmonton. On Thursday a similar shipment left Calgary for overseas, billed out by the company by George A. Davidson, their Calgary representative.

YOUNG WIFE AFRAID TO EAT ANYTHING

"I was afraid to eat because I always had stomach trouble afterwards. Since taking Aderlin's I can eat and feel fine." (Signed) Mrs. A. Howard. ONE spoonful Aderlin's removes GAS and often brings surprising relief to the stomach. Stops that full, bloated feeling. Removes old waste matter from intestines and makes you feel happy and hungry. Excellent for obstinate constipation. Northern Drug Company.

You would not be ashamed of your stationery if it had been printed at The Times office.

Liberal Government
Favors Immigration

This country needs a larger population especially to develop our agricultural and other natural resources. When the Laurier government left office in 1911, the immigration was satisfactory and steady. The successive Conservative governments failed to follow up the good example of its predecessor, and when the Great war came, immigration ceased completely. It has not yet been revived, due somewhat to conditions in Europe which preclude people of a suitable type from emigrating. Our rigorous climate demands that only those who are fitted to cope with real pioneer life should be considered as possible immigrants. Our proximity to the United States is another deterrent to Canada, but the necessity of securing suitable settlers is a matter engaging the close attention of the government and the recent appointment of a Minister of Immigration who is to give his whole time to his work will produce results in the near future.

No one knows the exact number of the Progressive candidates on immigration matters. One of the most prominent Progressive members, E. J. Garland, opposes immigration entirely. The Progressive leader, Mr. Forke, admits that he has no policy save that of "the satisfied settler being our best advertisement." Still others of the Progressives with vigorous action to be taken to induce settlers to come to Canada. From this multiplicity of ideas, the Progressives stand a poor chance of helping to evolve any definite policy.

The Record of
The Government

The Mackenzie King government has reduced expenditures. It has reduced taxation. It has removed burdens from industry and thus stimulated production. It has negotiated trade agreements with Australia, the West Indies, France, Belgium, Italy, Holland, Finland and Spain. All of these trade agreements are associated with a policy of reducing the cost of production, enabling our farmers and manufacturers to compete with a greater advantage in world markets. With this policy has gone an effort to reduce transportation costs by land and sea. In connection with our sea-borne commerce efforts are asked to bear in mind that it was the Progressive party in the house of commons which held up the Peterson contract—an honest effort made by the government to reduce the cost of transporting grain and other farm products from our seaports to those of Great Britain.

Progressives Have No
Future in Politics

The only policy opposing that of the government is the policy advocated by the Hon. Mr. Meighen. A vote against the Liberal candidate is a vote, directly or indirectly, for the return of Meighen. The Progressives have no coherent and intelligible policy, and for that reason, the Ontario Progressives have ceased taking political action. Two of the strongest men of the Progressives, Hon. T. A. Crenan, of Marquette, Manitoba, and Mr. Hoey of Springfield, Manitoba, have withdrawn from politics. These incidents show that the Progressives are realizing that they have no future in politics and will never become a factor in the political life of this country. Strengthen the hands of the Government by supporting the Liberal candidate, Stanley G. Tobin, on October 29.

Don't Lose
Your Vote

Voting for a U.F.A. candidate is a lost vote for any elector. It is a lost vote if all the U.F.A. candidates are elected. There will be only forty-eight Progressives in the field in the whole Dominion, and all of these are west of the Great Lakes. The U.F.A. candidates are included among the Progressives, but for the most part they are not in sympathy with the party led by Mr. Forke. The Progressives may, by a long chance, hold the balance of power in the next House of Commons, but considering their poor showing of the past four years, it seems incredible that the electors will look with any favor on their present claims for recognition.

National
Railways

The King government has fulfilled its promise to give public ownership of railways a fair trial. On taking power in 1921, the government found the National Railways in a badly managed and chaotic condition. Two sets of directors were in office, endeavoring somehow to make one part of the National Railways compete against the other with consequent increasing expenses in every direction. Eventually the government secured the services of Sir Henry Thornton, acknowledged to be one of the ablest railway executives in the world. Under his charge the National Railways have been unified, consolidated and re-organized. He has infused into the whole body of officials a spirit of enthusiasm, pride in the system and an eager desire for public service. Today the Canadian National Railways are the equal of any in the world. Operating deficits have been turned into surpluses and, while the immense debt charges against the National Railways still remain and will remain for years to come, it is only through business management, with no political interference, that these charges will be eventually reduced.

A vote for Stanley G. Tobin will be a vote for continued efficient management. The country cannot afford to take a chance by voting against a government which had the foresight and the courage to deal with the Canadian National Railways in a businesslike way.

The Tariff
Question

Accusations that the Government has made no attempt to carry out its pre-election promises have no basis in fact. The Liberals have had "tariff for revenue only" as a basic policy for thirty years and to that end have worked steadily. Tariff changes are matters which require long and earnest consideration and can only be made with due attention to existing industries which might be adversely affected or even bankrupted by hasty, ill-considered action. But the government has brought about many radical reductions particularly in the tariff reductions on farm products, the greater number of which today carry no higher duty than from 6 to 10 per cent. Other tariff changes are in view, each with the object of reducing living costs, ameliorating the lot of the producer and stimulating home production.

Ford Spends
Millions Advertising

An advertising expert points out that Henry Ford, though one of the richest men in the world, spends as much as seven millions a year in advertising. He does this in order to be able to keep protection up and costs down. If his production were cut in two, the price of cars would jump accordingly. This is the theory and practice of all good advertising. By increasing volume of sales it cuts costs of production and selling. Advertising is not an expense; it is an investment and one that yields big returns if properly cared for.

GREAT ELATION
OVER VICTORY
WORLD PEACE

Locarno, Oct. 17.—Europe's great security conference ended Friday night in a victory for peace. At exactly 7:20 the European statesmen made this victory possible by opening a window in the second floor of the palace of justice, and, rejecting decorum, announced to the waiting multitude that the thine past and other treaties had been formally approved; one of their number held aloft the final protocol bearing the signatures of all the delegates as proof that the conference had succeeded in its mission.

Instantly the crowd gave vent to its enthusiasm. Rockets were sent into the air, their balls of fire barely missing the heads of the delegates. The appearance at the window of M. Briand, the French foreign minister, was greeted with prolonged cheering. When the British foreign secretary, Austen Chamberlain, came and waved his hand, the crowd clamored for a speech. Chamberlain, Luther and the German foreign minister, Dr. Stresemann, were acclaimed with no less fervor than their colleagues.

CARRIES A RECORD
CATTLE SHIPMENT

Two trains, totalling 114 cars, left the Union stockyards, St. Boniface, on the morning of October 14, for Montreal and other eastern markets via the Canadian National railways. According to terminal officials of the railway, this is the largest, if not the largest, shipment of livestock ever made in one day from these stock yards.

PROMISING NEW
WHEAT VARIETIES

Among the numerous new varieties of wheat produced by the cereal division of the federal experimental farms and now under test, the two varieties Garnet and Herward continue to be most promising. These varieties have been tested carefully on the provincial experimental farms for a number of years, but during the past season they have also been compared with other sorts such as Marquis on over 100 ordinary farms scattered widely throughout the three prairie provinces. As a result of all these tests, the varieties in question have demonstrated beyond much doubt that they are likely to be very valuable in certain districts at least.

Here and There

Sport conditions are very good in New Brunswick this year. Harold Chadwick operating hunting camps in the province reports that at the end of September catches of speckled trout weighing 18½ lbs. were taken one day while a hunter took out a big game licence September 23rd and three days later had his deer and bear.

The world's most northerly police post, also the most remote of any human habitation, is to be constructed next year for the Royal Canadian Mounted Police at the far end of Ellesmere Island. Building materials and two years' supplies will be cached within easy freightage distance of the point where men will be detailed for patrol duty on the lonely shores of Riel straits.

Appointments recently made through the office of the Comptroller Canadian Pacific Railway headquarters are W. J. Cherry who becomes Freight Claims Auditor in place of J. R. Steele retired under pension rules, and W. L. Moran appointed Assistant Freight Claims Auditor. Both these gentlemen have been connected with the Freight Claims department for many years past.

Because the prospects for hunting and fishing in northern regions of Quebec are more attractive this autumn than they have been for several seasons, the number of residents of the United States applying to the Quebec association for the protection of fish and game for guides and licenses is much greater than it has been for some time, according to the secretary of the association.

A very pleasing incident occurred during the visit to Montreal of Madame Marie Jeritz, world-famous operatic star. Col. George H. Ham, "Grand Young Men" of the Canadian Pacific Railway who had met the singer before, sent his felicitations in the form of a bouquet, and Madame Jeritz replied with a bouquet of roses made of sugar with the hope that his days also would be sugar-coated. She gave a delightful recital in Montreal, leaving for Toronto the following day.

Isaac Gouverneur Oden, vice-president in charge of finance, Canadian Pacific Railway, attained his 81st birthday October 10. Mr. Oden is as active as ever although he has spent 54 years in railway work. He joined the C.P.R. as auditor of the western division with headquarters at Winnipeg in 1881 and has been vice-president of the system since 1901. Mr. Oden was the recipient of flowers and congratulations from his colleagues on the occasion of his birthday.

Carelessness and lack of forethought on the part of some unknown motorist at Belleville might have led to serious accidents if it had not been soon discovered that the wig-wag signal protecting the C.P.R. level crossing on the Kingston Road was out of order. Investigation showed that an automobile had driven out of its course and broken the relay case thereby cutting the electrical contact. A watchman was immediately placed at the signal until necessary repairs had been made.

The Montreal Windsor street traction police team are the champions of the Quebec district in the First Aid contests held at the Piau-Vigier hotel in that city under the auspices of the Canadian Pacific Railway. They won the contest against teams from Ottawa and Quebec and are now holders of the Guileless Challenge Cup, emblematic of the C.P.R. First Aid championship of the province. The champion ship of the New Brunswick district was won by the McAlpine team who competed against Saint John's Vigodetels.

Find it best for cleanliness
Don't call the plumber when the sink drains into a clog. A little Gillett's Lye will probably clear it in a few minutes. Saves the sanitary issue.

**GILLETT'S
PURE FLAKE
LYE**

THE PRAIRIE
NOMINATIONS

Winnipeg, Oct. 17.—Thirty-one candidates were officially placed in the federal election field in the three prairie provinces of Manitoba, Saskatchewan and Alberta, yesterday. In Alberta nine candidates were nominated in three constituencies. In Manitoba ten candidates were nominated for four constituencies. In Saskatchewan 12 candidates were nominated for four constituencies.

In Saskatchewan the party division was even in today's nominations with 4 Liberals, 5 Conservatives and 4 Progressives lined up in 4 three-cornered fights, in the constituencies of North Battleford, Maple Creek and Prince Albert and Melville.

Likewise in Alberta the party representation was even. A Progressive Liberal and a Conservative were nominated in each of the three constituencies of Macleod, Peace River and Athabasca.

THINGS A POOL CANNOT DO

The Pool can't make poor farming good—
at all, at all, at all.
It cannot get for "bumper" crops what it can get for small;
it cannot do the work which lies at every Manitoba hand;
it cannot bring you profit-crops on poor or weedy land;
it cannot change the interest on all your mortgage money;
it cannot in a year or two change want to "milk and honey."
It cannot lower costs all round on twine, and coal and lumber;
it cannot guess who "John Jones" is without his contract number;
it cannot get the year's peak price for every blooming Member;
it cannot store the summer heat, and spread it through December;
it cannot bring the jewelled rain, nor can it lay the dust;
it cannot stop the flying hail nor can it stem the rust;
it cannot change a "boobling" Jade, and make him tilt the seat;
it cannot blame the gambling crowd for fighting for your "wad".

During 1924 twelve automotive plants in Canada turned out products valued at \$88,480,418.

Heart So Bad
Nerves So Bad
Could Not Sleep

Mrs. S. Heames, R.R. No. 1, Esterville, Ont., writes—"I have been so greatly benefited by using Milburn's Heart and Nerve Pills I feel that I should write to tell you how grateful I am for your splendid remedy. My heart has been bad for the past five years, and my nerves in such a state I did not sleep at all and my appetite was poor, and I had no courage to do anything, and did not care whether I died or not, so one day I told my husband that I was going to stop doctoring, as I might as well be dead as the way I was, and that I would be better off.

Oh! no one knows what I suffered from my nerves, as I was afraid of every noise and my heart would "jump" at every sound. All the remedies, and doctors, I had tried did me no good, until one day a friend told me about Milburn's Heart and Nerve Pills, and after taking the first box I could see a change, and after taking six I am now completely rid of my troubles.

I feel that if it had not been for your Pills I would have been dead and buried by now."

It and M. Pills are put up only by The T. Milburn Co., Limited, Toronto, Ont.

I AM YOUR FRIEND;
WHAT IS YOUR NAME?

Without me no man has ever achieved success, nor has any nation ever become great.
I have been the bedrock of every successful career, the corner stone of every fortune.

All the world knows me; the larger part of the world needs my warning. The poor may have me as well as the rich.

He who possesses me has contentment in the present and safety in the future.
I am of greater value than pearls, rubies and diamonds.

I lift my possessor to higher planes of living, increase his earning power and bring to realization the hope of his life.

I make a man well dressed, well housed and well fed.
I insure absolutely against the rainy day.

I drive want and care and doubt away.
I guarantee those who possess me prosperity and success.

I have exalted those of low degree, and I have of high degree have found me a helpful friend.

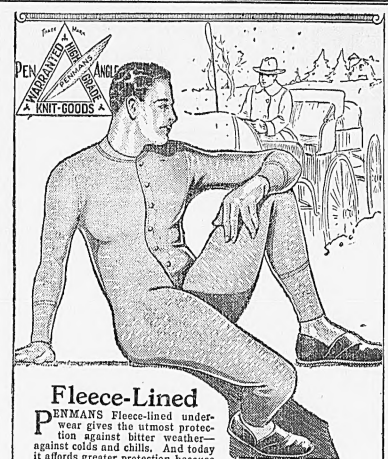

I am yours if you will take me.
My name is Thrift!

SHIPPING MORE BUTTER

Butter exports via Montreal are more than twice as heavy so far this year as they were in 1924, and the movement of cheese is also larger, although not in the same proportion.

WHO SAID 'BRUIN'?

Fleece-Lined
PENMANS Fleece-lined underwear gives the utmost protection against bitter weather—against colds and chills. And today it affords greater protection because it is a 1925 garment—with all the snug comfort and long hard wearing qualities which the most efficient manufacturing methods can produce. Ask for Penmans Fleece-Lined No. 37. Made in both Two-piece and Union Suits.

Penmans
UNDERWEAR

ADVERTISE IN THE PAPER WITH A CIRCULATION!

Who Gets Your Hand Bills?

You pay out good money for a lot of paper stock, and more good money to have your message printed on it.

Then comes the problem of reaching your prospects. Mailing out circulars is expensive and they usually reach the waste-basket without even being opened at that.

The next best way is to give Willie or Jimmie half a dollar and an armful of circulars with strict orders to shove one under every door in town.

Willie (or Jimmie) does nobly until the tempter comes along to inform him "they're bitin' swell down to Skinner's Creek," and your precious circulars are delivered in one big expensive bunch—into some ash barrel!

That same amount of money invested in newspaper space in The Times would bring better and surer results.

It is the only medium through which you can really reach the people of this community. Going into almost every home and being read by an average of five people to each family, you can readily see the value of newspaper space in reaching the greatest number of prospective customers.

Advertise in this newspaper and reach the nine out of every ten who do not read or receive your handbills or circulars.

Have our Advertising Man call and show you what a sure result-bringer our newspaper space is, especially when we furnish you the ads and cuts.

CROWDED AUTO TURNS TURTLE

Lacombe, Oct. 15.—Mrs. Sawyer sustained a broken wrist and six other occupants of the car in which they were driving were badly shaken up, when it left the grade at a point a mile east of Lacombe yesterday evening.

The car, bearing six women, residents of Ponoka, skidded on the rough road, plunged ten feet into the ditch below and turned over, pinning the women underneath. They were fortunate enough to get out from under the car without serious damage. Those who viewed the wrecked car and the high grade state that only a miracle prevented a more serious accident.

Touring cars comprised 64.7 per cent of the total output of motor cars in Canada during 1924.

UNRESERVED AUCTION SALE

British and Canadian Army Surplus Goods

300 SETS HEAVY FARM HARNESS
1,000 GOOD LEATHER HALTERS

N. A. JOHNSON,
Returning Officer.

Dominion Elections Act

ELECTORAL DISTRICT OF WETASKIWIN

Notice is hereby given that D. W. Warner, one of the candidates for the pending election in this electoral district, has appointed Fred H. Herbert of Strathcona, Box 4175, as his official agent.

Dated at Wetaskiwin, October 19th, 1925.

N. A. JOHNSON,
Returning Officer.

NOTICE

NOTICE is hereby given that, in accordance with the provisions of "The Irrigation Act," the Canadian Pacific Railway Company have filed the necessary memorial and plans required by Sections 13 and 15 of the said Act, with the Commissioner of Irrigation, at Calgary, Alberta.

The company applies for the right to divert sufficient water from Pipestone Creek at a point on the North-east quarter of Section 12, Township 47, Range 24, West of the 4th Meridian, for industrial purposes, and for the right to construct the necessary works, as shown by the memorial and plans filed, to enable the water so diverted to be used for the said industrial purposes, in the Company's works, engines, and buildings situated at Wetaskiwin.

The aforementioned lands are also affected by right of way for the proposed works, viz: The Northeast, Southeast, Southwest and Northwest quarters of Section 12; and the Northeast, Northwest and Southeast quarters of Section 1; the Northwest and Northeast quarters of Section 11; the Southwest quarter of Section 14 and the Southeast quarter of Section 15, in Township 47, Range 24, West of the 4th Meridian, Northwest and Southwest quarters of Section 25 and the Northwest quarter of Section 26, in Township 46, Range 24, West of the 4th Meridian.

DATED at Calgary, Alberta, this 14th day of September, 1925.

THOMAS LEECH,
Applicant.

AUCTION SALE

OF PURE BRED, REGISTERED
AYRSHIRE CATTLE

The undersigned Auctioneer has received instructions to sell by Public Auction on the North of half Section 28-46-22, 14 miles west and 2 miles south of Camrose, 2 miles east and half mile north of Wynne, 3 miles west of Hittern Lake station and 13 miles east of Wetaskiwin, on

THURSDAY, NOVEMBER 5

At 1 o'clock sharp, the following:

12 head of pure bred Ayrshire cows, all milking, 4 head will freshen in November, balance to freshen the first part of the year. The above mentioned cows are a fine lot and to anyone interested in Ayrshires, it will be worth their while going a long way to get a couple of these choice cows. The above cows are all bred and in calf to the herd bull Balm Bank—Non Skid 3rd, 96255, whose dam holds a record for two successive years of over 14,000 lbs of milk and 545 lbs of butterfat each year; the sire of Angus Bank—Non Skid is Alta Crest, the grand champion at Edmonton, Calgary and other western fairs.

4 Yearling Heifers.

4 Heifer Calves.

2 Bulls, rising 2 year olds; these young bulls are good individuals and are from high producing cows.

Papers and transfers will all be in order day of sale.

NOTE—A limited amount of accommodation will be arranged for anyone coming from a distance.

TOWN TOPICS

A telephone has been installed in the Liberal committee room. The number is 118.

Sims-Brown Co. sold a Ford truck to Sam Baxter last week, for use in his dray business.

Remember the concert and dance to be given in the Leduc school on Friday evening, October 30th. Conducit orchestra in attendance.

Jas. Dickson, who has been laid up for over a year with a sore foot, resumed his position with the C.P.R. last week.

The I.O.D.E. intend holding an Armistice Dance in the Elks hall on Monday evening, November 9. Particulars later.

Mr. and Mrs. Rolt, while motored to Dayland last week and spent several days with old friends. They returned home on Monday.

Mrs. Horace R. French and son, who have been visiting relatives and friends in different parts of the east, returned home on Tuesday afternoon.

J. W. Heric is erecting a large addition to his building cornering Railway street west and Lorne street. It will be occupied by the Edmonton Pure Butter Co.

A. R. Robinson, M.D., of California, was in the city last week visiting at the home of his brother, George, and renewing acquaintances. He was formerly Methodist minister here.

The Wetaskiwin Tennis Club concluded the season a few evenings ago with a banquet and dance, which was given in the Women's Institute building. An excellent time is reported.

Good progress is being made with the addition to Smith's Variety Store. The brick work of the walls is almost completed, and the roof will soon be put on.

Miss Eleanor Poole, who is a student at the McTavish Business College, Edmonton, spent the weekend in the city with her parents, and other friends.

The Ladies' Aid of the New Sweden Mission church will hold their annual sale on Friday, October 30. Lunch will be served free. Everybody is cordially welcome.

The Catholic Women's League served an excellent chicken supper in the Elks hall on Saturday evening last. A large crowd attended, and the undertaking was quite a success financially.

A meeting of those interested in the organization of a horticultural society in Wetaskiwin was held in the Oddfellows' hall on Wednesday evening. We will give a report of the meeting in our next issue.

Inspector Smith was in the city last week on his official visitation to the high school. He verbally reported everything to be in very good condition. His official report will be sent to the school board at a later date.

A distressing accident took place last week when a young man, who arrived in the city to accept a position with H. E. French, had a blood vessel burst in his brain the day he arrived. He was taken to the home at Ponoka for treatment.

The Mission Friends Ladies' Aid will hold their annual sale at the Swedish Baptist church on Tuesday, October 27, at 9 p.m. sharp. Two wool quilts, wood socks, and fancy work will be sold. Coffee and lunch will be served after the sale.

The railway yards at Wetaskiwin are quite congested these days, owing to the number of freight trains passing through. We understand the wheat from north-western Saskatchewan as well as the Peace River district, adjacent to the C.P.R. lines, is now being routed over the C. & E. line.

About fifteen members of the Masonic order motored to Camrose on Monday last to attend a district meeting being held there. Among those who gave addresses was R.W. Bro. Manley, of Wetaskiwin, who was the D.D.M.C. last year. A banquet was served at six o'clock and the Wetaskiwinites report having had a delightful outing.

BUSINESS LOCALS

***Come and hear the election results by radio Thursday night at the Angus Theatre.

***The Imperial Bank will be closed on October 29th, (election day) at 12 o'clock noon, thereby conforming to the order in council.

***The Tip Top Tailor Man will be at the U.F.A. store on October 30th and 31st, with a complete line of samples. Visit and see him about your winter suit and overcoat.

***Romance in old Seville—black-eyed senoritas, dancing pleriders, and an outlaw chief. All the glimmer of Spanish love and the thrill of a real bullfight at the Angus Wednesday and Thursday.

The "Artesian belt" of Australia is larger than all Argentina.

The Australian Treaty

A Blow at the Alberta Dairy Industry

The Australian Treaty was entered into between the Government of Canada and the Government of Australia. It was ratified by the Canadian parliament in June last and has since been ratified by the Australian parliament and came into effect on the first of October. Briefly it reduces or abolishes the duty on a number of farm products coming into Canada from Australia, while makers of automobile parts, paper manufacturers and salmon canners get favored treatment in the Australian market.

Australia produces butter and a number of other farm commodities more cheaply than any other country in the world. It has a mild climate and the Australian farmers' cattle graze all the year around. Australian butter is therefore an important competitor with Canadian butter in the markets of the world. During the winter months our chief butter market is the Pacific Coast. At this time the cost of producing in Australia is at the lowest because it is the summer season in that country. Our cost of production is at the highest. Hitherto the Australian product has been pretty well kept out by a duty of 4 cents a pound. Under the Treaty the duty is aimed "whipped only," being reduced to 1¢ a pound. The Australian product can be carried across the Pacific to the Coast cities as cheaply as it can be shipped from Calgary to Vancouver by rail.

So serious is the outlook that the matter has been taken up by Alberta dairymen and the following letter has been sent out by the P. Burns Company to its patrons in the Province of Alberta:

"Our Dominion government and the Australian government have just about completed arrangements to reduce the duty on Australian butter coming into Canada from four cents a pound to one cent a pound.

"Australia produces a large surplus of butter for export during the winter period and this reduction of three cents a pound in the Canadian duty on Australian butter means that the western farmer will receive three cents a pound less for his butter at a season of the year when he really needs the money most.

"If you wish to protest against this reduction of duty, write to D'Arcy Scott, secretary of the National Dairy Council at Ottawa, or write to us and we will see that action is taken on your protest.

P. BURNS & CO. LTD."

Mr. P. Burns is a well known Liberal so that this letter has not been got out for election purposes.

The Alberta dairy industry is threatened during the winter period with a reduction of 3¢ a pound in the price of butter. It has cost a great deal of money and effort to build up the Alberta dairy industry and it is impossible to understand why the Government should now sacrifice the industry for the benefit of makers of automobile parts and salmon canners.

Butter is not the only commodity that is threatened with a reduction in price. The following shows the Australian tariff and our tariff on certain important farm products.

Item	Australian tariff	Canadian tariff
Meats, per pound	5c	1c
Butter, per pound	5c	1c
Cheese, per pound	5c	6c
Eggs, per dozen	18c	Free

Mr. McKenzie King, speaking at a Vancouver banquet two weeks ago, referred to the Australian Treaty and intimated to a number of Vancouver that it might result in lessening the cost of what was put upon their breakfast tables in Vancouver. If such is to be the result of the Treaty, it will be at the expense of the Alberta farmer.

S. G. TOBIN

Federal Liberal Candidate
Champion of Western Interests

DARK DAYS—

Every citizen must remember the years 1913-14 and 1920-21. The first period of great depression was hidden from our view by the World War, the second was reflected by a change of Government. These were serious days. All Canada was clamorous for an election and a change of Government—we had lost our markets with the United States. Trade was at a standstill, the balance of trade growing steadily against us, our Bonds and Stocks were depressed, our dollar was only worth 80 cents. The Neignish Fiscal Policy had proved fatal to the best interests of all Canada. The condition of the country will be brought back to everyone, by an extract from Sir Henry Drayton's budget speech in 1921:

"Mr. Speaker, we in Canada have a great task before us. The world is sadly out of tune. Trust and confidence are sadly lacking. Class interests are advanced with selfish insistence. Unemployment is with us. Faith in our fellow men is weak. Doubt of the future is widespread and what is the trouble. The sun still shines, the rivers still sparkle and our lands are as fruitful as ever. Our resources just as great."

There you have state-manship, was there ever anything quite so helpless and pitiful, nothing about change of tariff or the establishment of trade, satisfied that the sun was shining and the rivers sparkling.

BETTER DAYS—

In 1921 the King Government came into power with terrible handicaps, loss of markets, astounding debt. Since last the Liberals were in power the debt had grown from less than Four Hundred Millions, to Two Billion Four Hundred Millions, a depressed and almost discouraged people filled the land. Nevertheless the policy of the shining sun and sparkling rivers were for the time forgotten, and reconstruction seriously gone into, with the result that in the short period of four years, trade treaties were established with many other countries. Commerce was revived. Instead of a balance of trade against us we now have a balance on the right side, of over Two Hundred and Fifty Million Dollars. Our Bonds and Stocks are buoyant, loans are floated at diminishing rates of interest. Our dollar is worth 100 cents. The Canadian National Railway, which in 1921, was a joke and a jeer, is today one of the greatest railways on this North American continent, steadily approaching in efficiency the C. P. R.,—one of the greatest railway systems in the world—all this has been brought about by a reconstruction and lowering of tariffs, establishment of markets, the reduction of transportation costs, the substitution of rigid economy in the place of reckless expenditures, and the establishment of confidence in the people.

Are we going back to Melgheon or bringing Melgheon back to us. The answer on the 29th must be NO!

Melgheon wants higher tariff for protection, and states repeatedly that the lowering of freight rates in the west, for the relief of the West, is "Utterly Indecent."

This is one of the most important elections in Canadian history. The duty of the Electors is clear. Support the present Government.

With reference to my opponent, Mr. Warner, I will take little space. I find throughout the whole district that the electors seem to fully realize that under our system of Government the Progressives can do little or nothing for the districts they represent. Their function is mainly only. That this is recognized is shown from the fact that very few Progressive candidates are put up throughout the whole of Canada. It would appear that outside of some of the mid-western members of the locals, who feel that it is their duty to support Mr. Warner, the tendency is to return to the two party system of government. In 1921 it was a three-cornered fight between Liberals, Progressives and Conservatives for the control of the Government. This year the issues are clear. We must decide between a Liberal and a Conservative administration and there will be no doubt about the decision that Canada will make.

A vote for Warner is a vote for a group which can have no weight in the Government of the day, with the dangerous possibility of splitting the vote and allowing the Conservative Candidate to slip in.

A vote for (themselves) is a vote in direct support of Melgheon, high protection and higher taxes.

A vote for myself will be a straight vote against the Melgheon Policy, and a vote for a strong advocate in the Councils of the Liberal Government, for Western development and progress.

In a country under representative Government each section or community will get results in molding and carrying out the policies it desires, only by sending strong representatives to act directly in the Councils of the Government.

I trust every elector will go to the poll and by casting his or her vote, show that they are interested in the welfare and prosperity of their own country.

Yours respectfully,

S. G. TOBIN,

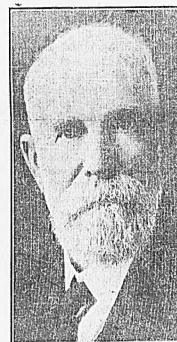

Candidate.

ADVERTISEMENT

Vote for

D. W. WARNER

U.F.A. Candidate

ELECTORS OF THE WETASKIWIN CONSTITUENCY I

Mr. Melgheon and the Conservative Party offer you a sky high Tariff Wall as a Protection from all your ills, and which they claim would provide a home market for all you have to sell at higher prices. No one can dispute the fact that a High Tariff would increase the price you would have to pay for everything you buy to wear, to eat, or to use. Can such a policy provide a home market for what you have to sell at a greater price or at any price? Is Canada able to consume all your products? Certainly Not! Protection then would be for the few (manufacturers) against the many (producers and consumers).

Mr. King and the Liberal party offer you a sort of Soothing Syrup made up of promises compounded on the spot to suit the needs or desires of the particular Candidate or locally; this party has for many years promised many of the reforms for which the farmers of the West have been striving, but have utterly failed to fulfill their promises.

Do you want either High Tariff or a Soothing Syrup of empty promises?

MAKE NO MISTAKE!

Your Only Protection is to ELECT a Farmer Member for

a Constituency which is 90% Agricultural, a member of the great Farmers' organization which has been of untold value to the Farmers of Alberta, a man who is pledged to no political party, but is free to act on all questions in the best interests of all the people, and who can and will courageously and intelligently support what he believes to be in your best interest at all times, and who has served faithfully for four years in the last parliament, and with the other Independent Progressive members of the house accomplished much for his constituency and for the West.

It is agreed on all sides that the large group of Independent Progressive members in the last Parliament were the means of retaining the Crownset P&B rates on flour and grain, which alone saves around twenty millions of dollars annually in freight rates to the Farmers of the West. This group of Independent Progressive members were a credit to the constituencies which elected them, and the Speaker of the House of Commons is reported to have stated that "these members had by their industry, sincerity, devotion to duty, constant attention and study of the business in hand, set an example which members of the older parties might well emulate."

The U.F.A. candidate in this election was one of these men.

CAMPAIGN IS LAUNCHED ON INCOME TAX

A Dominion-wide campaign to have the federal income tax abolished has been launched by the Retail Trade Bureau of Canada, the head office of which is in Ottawa. Already meetings have been held in Montreal, Ottawa and other centres and the response to the call for assistance has been most encouraging.

In an interview in which he outlined the principal reasons why the Retail Trade Bureau of Canada was opposed to the continuance of the income tax, Mr. E. M. Trower, Dominion executive director and secretary of the bureau in Ottawa, pointed out that one of the main faults with this tax is that it is making liars and thieves out of the people. "All men are not honest," he said. "If they were, they would make honest returns. Any system of taxation—I do not care where it is or what it is—that trusts the honesty of the people to put in a correct report is fundamentally wrong. The manner in which our income tax is collected leads us directly into temptation. The amount of income tax collected during the fiscal year 1921-22 was \$101,500,021; in 1922-23 it was \$72,742,000; in 1923-24 it was only \$58,956,708. Now surely that proves one of two things; either the tax is killing the business of the country or people are learning how to dodge it.

"Here is what is happening among the agricultural class:
In 1918-19—4,571 farmers paid \$350,111.00.
In 1919-20—9,477 farmers paid \$458,357.90.
In 1920-21—16,598 farmers paid \$502,357.90.
In 1921-22—18,841 farmers paid \$1,290,104.00.
In 1922-23—8,220 farmers paid \$473,949.00.
In 1923-24—1,663 farmers paid \$275,628.00.

"During a period of five years the farmers have paid \$3,108,489.00; the professional people paid \$11,253,955; the merchants paid \$24,968,752; the manufacturers (not including their salaries) paid \$3,685,541.00; and the employees—and this is an example of the unfairness of the thing—the employee is given a form to fill in; the government is not going to take any chances with him so they send the form to the employer to have it confirmed consequently they have all these employees doubly tied up; and the employees of this country contributed to the government during the five year period \$61,467,750.00.

"Please do not get the idea that I am opposed to the payment of taxes. I think we ought to pay taxes, but I am opposed to the unfair system of taxation, and the income tax is the most unjust tax that was ever placed upon humanity.

"While he does not seem to realize it, it is the consumer who is paying this tax and who ought to be the most interested party in any campaign to have it abolished. The man who buys the article last to the one who pays all the taxes. True, the tax is put on the retail merchant, and if he is a business man the tax will go into his costs. Then the consumer comes along and pays it, and when the consumer pays these taxes how can they be expected to pay their bills?

"There is another thing that is happening. Men are taking their money out of business and investing it in war bonds that are not taxed; or they are investing it in other countries; or they are leaving in their trail thousands of unemployed. You cannot choke off enterprise and energy without producing the very result that you do not want. The manufacturer who makes a million dollars has no more right to pay \$650,000 to the government than I would have to pay \$150,000 or \$200,000 if I only made \$500,000.

"The Citizen's Research Institute of Canada is convinced, after carefully studying the situation, and from

Bad Weather Hitting Alberta Hardest in Threshing Operations

Winnipeg, Oct. 17.—Serious damage to the grade of the western wheat crop because of delay in threshing operations occasioned by bad weather, is indicated in a special report on the threshing conditions issued by the Manitoba Free Press. The report is compiled from answers to queries to over 100 points in Manitoba, Saskatchewan and Alberta.

The province of Alberta has been hardest hit by the weather, the report states. Twenty points lying south from Lacombe to Milk River and east practically to the provincial border reported that from sixty to ninety per cent of the threshing remains to be done. In the Coronation district, the report states, threshing has been resumed and the best grade so far is No. 2 Northern, tough. At Hanna, wheat is reported to have lost two grades. Threshing has been delayed seven weeks at some points with a delay of three weeks reported from practically every point queried. Conditions in the northern sections of the province were reported better.

In Saskatchewan the report indicated that along the line of the C.P.R. southwest and southeast of that line, twenty to sixty per cent of the threshing remains to be done. North of the C.P.R. main line and along the north Prince Albert line of the C.N.R., unthreshed grain was reported to total forty-five to seventy-five per cent of the crop. The wheat is reported to have lost from one to two grades in the average delay of three weeks.

NO WORK

"I can't get work," said Sherolek Shirk, his mouth twisting pity; "in vain I trot from lot to lot, throughout the heartless city. I wish to tell that I may boil some cabbage for my nieces, I make my pleas on bended knees, but they are shot to pieces. There are no jobs," so Sherolek sobbed, "for one's whose strong and willing; on weary feet I pace the street, and fail to make a killing." Yet other men make frame and yen, to work they're blithe; skating; if fate should rob them of one job, they find another waiting. There's Jimson Jawn, who mows my lawn, and prunes the gaudy borders, who's making good at hewing wood with saw and axe and wedges; he does his tasks and never asks a question that would grieve me, and all I fear is that some year he'll pack his traps and leave me. For there are scores of money-horses who'd engage to raise his wage—their efforts keep me nervous. They come and fawn on Jimson Jawn and beg him to consider; the dream is mine that he'll resign, and seek the highest bidder. I do not think that any gink who works with fiery ardor need join the mob that has no job and nothing in the larder. Employers long for workers strong and quick and blithe and willing; such men don't walk around the block where busted ones are drilling.—Walt Mason.

the experience of other countries, that considerably reduction in taxation can be effected without lessening the quality of governmental service or the ability of our governments to meet their outstanding obligations. The Institute also believes that such reductions would result in greatly increased prosperity to the citizens of Canada, and they are right.

"If the sales tax goes on increasing the way it has started out this year, we will have enough revenue from it to be able to remove the income tax altogether. We are also getting a lot of money from the tariff. You cannot dodge the tariff and you cannot dodge the sales tax. That is why I favor them.

"The reason the Retail Trade Bureau of Canada has undertaken a campaign to have the income tax abolished is because it is one of the greatest offenders; because it is an outstanding interference with trade."

SILVER FOX A FEATURE NEW YORK FUR SALE

New York, October 16.—Silver fox featured Wednesday's sessions of the annual fall fur sales here. Clear black skins with plenty of silver in them sold best, the half-silver grey bringing the top price of \$290. The entire offering averaged twenty-five per cent above the levels of the spring sale.

More than six hundred "silvers" were sold. Blue fox sold to ninety dollars for the best, but declined 15 per cent. The only other fur sold was a large collection of skunk. The finest brought \$350.

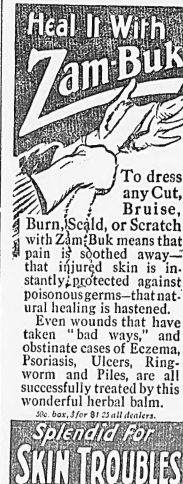

SUCCESSFUL HUNTING TRIP

Ten grizzly bears, and a dozen black and brown, one of grizzlies measuring over 11 feet in length, were among the trophies taken home recently by a party of United States hunters. The party spent forty days in the mountain territory of British Columbia along the lines of the Canadian National Railways.

Nine thousand two hundred and seventy-nine persons were employed by the automotive industry in Canada during 1924.

Rev. J. D. Howard, Pastor.

THE REALITIES OF FAITH

Rev. J. D. Howard, pastor of the United church, spoke on Sunday evening on "The Realities of Faith." He said faith is not merely a theological term, it is the warp and woof of life as instanced in its being the basis of all business activities. It is that which keeps us going when all else fails. The great record of outstanding biblical characters was the result of their faith in something and somebody. This is the function of religious faith—it puts some quality into life which cannot come from any other source.

MILLET WOMEN'S INSTITUTE

The meeting of the Millet Women's Institute was held at the home of Mrs. H. Phillips on Wednesday of last week, with the president in the chair, sixteen members and six visitors present. A letter from Mrs. Montgomery was read asking for donations for the hospital bazaar in Wetaskiwin and it was decided that the members pack a box to send. Plans were made and committees appointed for a cooking sale to be held in the Community hall on Saturday, October 24. The remaining time was spent in a lively discussion of Mrs. Parley's bill. The institute went on record as favoring community property between husband and wife, but as the bill stands at present, it will not benefit either the wife or children; especially clause eight, where the husband gets sole control of the community property. Tea was served by Mrs. Phillips, assisted by Mrs. Rood and Mrs. Hoping.

In November, the institute will meet with Mrs. Clifford Wagner, on the 11th. Everybody is welcome.

WHO MAY VOTE

Every person, male or female not being an Indian ordinarily residing on an Indian reservation, and who—
1.—is a British subject by birth or naturalization.

2.—Has resided in Canada for 12 months and in the electoral district for 2 months immediately preceding the issue of the electoral writ.

4.—Is an Indian, whether on a reservation or not, if he has served in the late war.

The following persons are disqualified: certain persons employed in connection with the election; Indian residents on reservations who did not serve in the late war; prisoners or patients in lunatic asylums, inmates of charitable institutions; persons disqualified for corrupt or illegal practices.

SUPREMACY OF THE AIR

The Napier S-4 which is the secret monoplane built at Southampton for the British entry in the Schneider air cup race at Baltimore, is now ready for shipment to the United States. The utmost secrecy is still preserved, but it is capable of speed of considerably more than four miles a minute. The machine has monoplane wings built in one piece and no fabric is used, the only materials being metal and wood. The propellers are metal and the design throughout is entirely novel. The British hope not only to win the cup, but to gain definite air superiority.

SHORT NOTICE

MITCHELL — THE AUCTIONEER
W. L. Gray, E. Westbrook, Clerk, Owner

MILLET LOCAL NEWS

Mr. Fraser returned to town on Friday.

Mr. and Mrs. E. L. Morse were Wetaskiwin visitors last week.

Work on the U.F.A. store is going forward rapidly.

Miss Elsie Davis of Clover Bar, was recent visitor at the parsonage.

Harry Stewart of the Beaver Lumber Co. disposed of a car of coal in town last week.

Miss Hutton of Clover Bar, was the guest of Miss Rupert during the past week.

Mrs. S. Groves is visiting Mrs. Lloyd Wolf and other friends in the district.

Mrs. Stuart McElhannon left for home in Red Deer on Thursday morning.

E. Westbrook is selling out by auction in a short time, and will be moving to California.

A new elder sidewalk is in process of construction from the drug store to the C.P.R. tracks.

Election prospects and threshing are the chief topics of interest just now.

Mr. Gardiner of Spirit River was the guest of Mr. and Mrs. Just during the past week.

Mrs. Kembery of Edmonton with her little son are visiting her mother, Mrs. W. Dinny.

Church of England services will be held in the church of the L.D.S., on Sunday morning next.

Martin's orchestra are playing for a Halloween dance in Payton's hall on Sunday, October 30.

Misses Mona and Elsie Cottrell visited their home near Wetaskiwin over the week end.

Mr. Thompson had the misfortune to have a valuable horse killed by the train on Thursday evening.

Miss Ford of the Millet school teaching staff, spent the week-end at her home in Edmonton.

Mr. Graham had his furniture brought down from Edmonton on Friday.

Mr. and Mrs. N. A. Kilburn and Mr. and Mrs. Miller of Edmonton, were guests at Rideau Farm.

Mr. A. McLean is spending a week at his farm at Provost. By phone he tells us that the wheat there is going No. 1 with one per cent dockage.

The choir practice on Thursday evening was held at the home of Mrs. Morse, who served refreshments at the close of the exercises.

A large quantity of grain and green feed was destroyed by fire on the farm of Mr. Liske near town a few days ago.

The many friends of Mrs. Howard, who is visiting in Ames, Iowa, will be glad to know that she is recovering from her recent illness.

The apple car advertised by the U.F.A. store has been well patronized, and apples of good quality being distributed.

Mr. and Mrs. Ray Wolf motored to Rosedale on Thursday last to attend the funeral of Mrs. Wolf's grandfather, Mr. John Fontaine, an old timer of that vicinity.

Plans for straightening the Calgary and Edmonton trail north of Millet are under consideration by the Good Roads association, and operations are expected to begin ere long.

The Ladies' Aid of the United church, Millet, are holding a fowl supper in the community hall on November 6. Further announcements will be made.

The Women's Institute will hold a sale of home cooking and afternoon tea will be served in the community hall on Saturday afternoon, October 24th.

Rev. J. B. and Mrs. Howard with Miss Mary and Miss Ardella Kropp motored to Edmonton on Monday to be present at the gathering of the early members of Grace United church returning on Tuesday.

The report of the first Presbytery meeting of the United church, which was held in Lacombe a few weeks ago was given in the United church, Millet, on Sunday evening, by Mr. Graham.

CARRY-ON CLUB

The Carry On Club met on Monday evening, the meeting being in charge of the spiritual department of the club, with Mrs. Howard superintending. The program was a very interesting one of songs at the opening. Mrs. Howard read the lesson for the evening and gave a short talk on the books, apostles and letters of the bible. John Smith read a splendid paper on "The Introduction of Christianity into England." After these came a bible game. The members were given a list of paper on which to write the names of wives of different bible characters, which were found on other slips around the room. The papers were corrected to see who had the most correct names.

NORTHERN ALBERTA IS EXPERIENCING CRIME CALM

With city police experiencing one of the quietest periods in recent record, it would appear that the "crime wave" in the north is extending to other places. The provincial jail at Fort Saskatchewan now has but 78 male prisoners as compared with 121 twelve months ago. Last year the jail warden was able to supply men for local harvest work; this season all the "criminals" have been required to take care of the crop on the jail farm, which has turned out an average of 51 bushels of wheat to the acre, with a yield of 46 bushels to the acre on the number two farm.—Albertan.

FAITH IN ADVERTISING

Dorothy had been praying for a baby sister. The other day her mother, while reading the paper, exclaimed "I see Mrs. Smith has a little daughter."

"How do you know that, mother?" "It says so in the paper, dear."

"Read it to me."

"Born on October 2, to Mr. and Mrs. — Smith, a daughter."

Dorothy thought a moment, and then said: "I know what I'm going to do. I'm going to stop praying and begin advertising."

G. A. Wagner has returned home after a three months' visit to his old home in Nebraska. He visited many places and had a delightful motor trip to Tennessee. We are hoping to have for our readers a fuller account of his trip and visit to the "old home town."

Rev. Mr. Williams, formerly of the Presbyterian church, now of the United church, a returned missionary from Formosa, and making an itinerary of the province, will speak in the United church, Millet, on Thursday evening at 8:15 o'clock.

The "She" card party under the auspices of the ladies of the Church of England, Millet, and under the direction of Mrs. J. H. Parker, will be held in the Community hall, instead of in Payton's hall, as previously announced. It will be held on Tuesday, October 27, at 8:30 p.m.

The political meeting in the interests of Mr. C. H. Russell, the Conservative candidate for the federal riding of Wetaskiwin, was held in the community hall, Millet, on October 15. Mr. P. Rood acted as chairman of the meeting, and the speakers were Mr. R. Milner and Mr. P. Daney. The meeting was fairly well attended.

Puts
Flavour
into
Home Cooking

Don't think of Mustard
merely as a spicy relish
to enjoy with cold meat.

Mustard is a seasoning
to be used as widely as
you use salt and pepper.

Mustard brings out the
natural hidden flavours
of cooked dishes and,
adding its own flavour,
gives them a new zest
and relish.

Keen's
Mustard
aids digestion

SUGAR INDUSTRY FOR ALBERTA; PEOPLE ARE URGED TO BUY PRODUCT

The Raymond sugar factory in the southern part of the province has reached the crucial period in connection with its industry, that of marketing its product. A million dollar plant has been erected for the purpose of extracting sugar from the huge quantities of sugar beets grown by southern Alberta farmers this year. Western Canada is struggling to attract industries to use the great wealth of raw materials at hand and it is felt that only such industries already started are encouraged and supported will maintain interests in west capital in the west. It is stated that a Lethbridge wholesale firm has placed an order for the first car of "Raymond" sugar. The people of Alberta are asked to give this sugar preference.

The Bad Cold of To-day May Be Serious Tomorrow

The cold may start with a little running of the nose, the head becomes stuffed up, but little attention is paid to it, thinking perhaps it will pass away in a day or two. You neglect it, and then it gets down into the throat, and from there to the lungs, and becomes a case of coughing, sneezing, sore and night.

However slight a cold you have you should never neglect it, for if you do it is just possible that it will develop into bronchitis, pneumonia or some other serious throat or lung trouble.

Dr. Wood's
Norway
Pine
Syrup

is an universal remedy for all those who suffer from any form of bronchial trouble, as it stimulates the weakened organs, soothes and breaks the irritated parts, loosens the phlegm and mucus, and aids nature to clear away the morbid accumulation.
